CERTIFIED MAIL: RETURN RECEIPT REQUESTED: 7003 0500 0003 0871 2415

(b) (6)

103 West Aztec Boulevard
Aztec, NM 87410

Dear (b) (6)

I am following up on your February 27, 2003, letter to Mr. Lawrence E. Starfield, then acting Regional Administrator of the Region 6 office of the U.S. Environmental Protection Agency (EPA). You petitioned the EPA to conduct Preliminary Assessments (PA) at four locations near your residence in northern New Mexico.

I have enclosed copies of the completed PA reports prepared by our contractor, Ecology & Environment, for the four locations referenced in your petition. Attached to each report is a copy of an EPA Superfund Site Strategy Recommendation (SSSR) for that particular facility. Based on a visit to each location (facility) referred to in your petition and the review of the PA report, we have determined that no EPA action is necessary at these sites at this time.

I hope this information is helpful to you. If you have additional questions, please contact LaDonna Turner, of my staff, at 214-665-6666.

Sincerely yours,

Ragan Broyles
Acting Chief
Response & Prevention Branch
